

Development of teamwork skills for teachers to acquire professional knowledge and to ensure teaching quality and prestige

Thematic area, sector: VETPRO

Duration: 01.08.2008. – 31.07.2009.

Having the aim to develop and plan the professional career in the EU cultural background, it is necessary to raise the ability of young people to work in a team and adapt the changing requirements of labor exchange to have more as well as new professional specializations. Such ongoing processes as creating new educational methods, developing students' professional career teaching and planning, motivates long-life learning.

The objective of the project is to develop team-work skills, gaining new competence and ensuring both quality and prestige of the professional teaching.

Vocational training specialists have gained new competence in entrepreneurship skills development and in applying the teamwork organizing methods. Teachers developed a model of "Career Club" (CC) activity, focusing on career planning motivation and teamwork skills development.

CC activity model is presented in the Republican Methodology Committee, in the Republican School students Councils, and the Republican Body workshops.

CC's business model – teamwork organization, methodological recommendations as well as its integration into the educational process is presented for the Republican Group of Methodology during the group meeting.

Ready CC program and methodical recommendations are proposed to include into the school's annual program of activities. Project results was published in the newspaper "Centriukas" and established in both Alytus and Vilnius Vocational training institutions websites. The Career Club is set.

There was held the Republican event on the subject "Career Today and Tomorrow", which was attended by the Member of Parliament Ms. Vilija Aleknaitė - Abramikienė and some teachers and students from several Vocational training institutions.

CC activity achievements are introduced to the Association of Innovative Vocational Training during the Republican Conference of Establishments, what resulted in expansion of inter-school co-operation network.

With the aim to develop entrepreneurial skills KK members and teachers collaborate with M. Riomeris University - take part in the training program "Leadership Academy" and in the seminars of "Swedbank", AB.

Currently the training development program for teachers based on CC operations is being worked out.
