Make your Wiki for free

What is a WIKI?

- A website that allows visitors to add, remove, edit and change content.
- It also allows for linking among any number of pages and websites.
- It is easy to use and an effective tool for collaborative authoring.

Advantages of a WIKI?

- It's free and ad-free for educational use worldwide.
- 2GB of space, unlimited pages.
- Upload files up to 20MB/file.
- It's easy, no program language or HTML code knowledge required, easy to use editor.
- Nothing to install on your computer.
- Use media and widgets from all over the Web.
- Complete history of every edit.
- You can update from anywhere, if you have an internet connection.
- ...

How are WIKI's used?

- Student Portfolios.
- Project-Based Learning.
- Curriculum Planning.
- Professional Development.
- Student Assignments.
- Distance Learning.

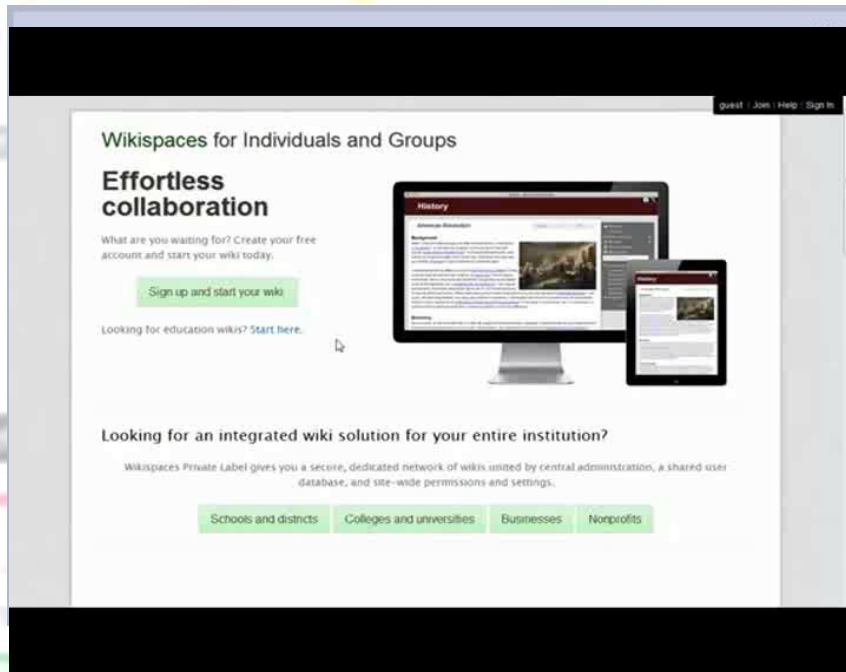

- ...

In EUROGUIDANCE:

- As a homepage of a centre.
- As a tool to work together in the workgroup Mobility.

The screenshot shows a video player interface with a YouTube logo in the bottom right corner. The video content displays a web browser window titled "Euroguidancemobility - Tutorial - Windows Internet Explorer". The address bar shows the URL "http://euroguidancemobility.wikispaces.com/Tutorial". The browser window displays the Wikispaces website, which includes a sidebar with navigation links such as "Members", "Recent Changes", "Manage Wiki", and "Search Wiki". The main content area shows the "Introduction to Wikispaces" page, which includes a "Get started on Wikispaces.com" dialog box. This dialog box prompts the user to create a Wikispaces account by providing a username (carole2012), password, email address (carole2012@email.com), and a wiki name (tut). It also offers options for wiki permissions (Public, Protected, Private) and wiki type. The background of the video shows the Wikispaces interface with a sidebar containing navigation links and logos for CBO, Lifelong Learning Programme, and EAQEA.

An analysis of mobility and the consequences for guidance before, during and after a stay abroad

Introduction

Mobility and the intercultural exchange of young people are not new. Already after WW II the exchange of young people in Europe was encouraged to bring countries together and promote international understanding. It was youth work that took the first initiatives, followed by voluntary work not only in Europe, but also in the rest of the world. In the meantime schools, universities, cities, NGOs, peace movements... followed with mobility initiatives.

However mobility is not always successful.

Research from Hansel (2005) shows that:

Twitter

Twitter is an information network that brings people closer to what's important to them.

- Every day, millions of people turn to Twitter to connect to their interests, to share information, and find out what's happening in the world right now.
- Anyone can read, write and share messages of up to 140 characters on Twitter.
- These messages, or Tweets, are available to anyone interested in reading them, whether logged in or not.
- Your followers receive every one of your messages in their timeline - a feed of all the accounts they have subscribed to or followed on Twitter.
- This unique combination of open, public, and unfiltered Tweets delivered in a simple, standardized 140-character unit, allows Twitter users to share and discover what's happening on any device in real time.
