

Erasmus+ Programme

Capacity-building in the field of higher education (CBHE)

What is Erasmus+?

For over 30 years, Europe has funded the Erasmus programme, which has enabled over four million European students to study, train, and gain experience abroad.

Erasmus+ recognises the importance of opening up these opportunities, funding the exchange of students, academics, ideas and good practice between organisations in Programme countries¹ and Partner countries² throughout the world.

In the framework of the new programme 2021-2027, the international activities will cover Higher Education (HE), Vocational Education and Training (VET), Youth and Sport.

What is a CBHE project?

A **Capacity Building for Higher Education project** operates as a multilateral partnership between institutions active in the higher education field from Programme Countries and Partner Countries. Projects support the relevance, quality, modernisation and accessibility of higher education, to make it a driver for sustainable social and economic development.

All projects are required to pursue and observe the guiding principles of the action: inclusiveness, innovation, impact and sustainability.

What does a CBHE project do?

CBHE projects can carry out a range of activities focused on Partner Countries:

- Develop, test and adapt curricula, in terms of relevant and innovative content and through the teaching and learning methods used;
- Support university-enterprise cooperation;
- Work on upskilling and professionalisation of academic and administrative staff;
- Reform of the governance and management systems and structures at national, regional or institutional level;
- Foster the internationalisation of HEIs and their capacity to network effectively in research, scientific and technological innovation;
- Support the introduction of Bologna-type reforms at institutional, national or regional level;
- Develop and implement new approaches and tools for policy making and monitoring

Three types of projects:

1. FOSTERING ACCESS TO COOPERATION IN HIGHER EDUCATION:

These smaller scope projects are focused on higher education institutions. This project type is new and designed to cater for newcomers to the programme, less involved countries/regions, and for disadvantaged target groups. Project budget between EUR 200 000 and EUR 400 000, 2-3 years.

¹ EU Member States and third countries associated to the programme.

² Third countries not associated to the programme.

2. PARTNERSHIPS FOR TRANSFORMATION IN HIGHER EDUCATION:

These are also focused on higher education institutions, but designed to have a larger and wider impact on innovation, university/business relations and institutional governance.

Project budget between EUR 400 000 and EUR 800 000, 2-3 years.

3. STRUCTURAL REFORM PROJECTS:

These projects focus on the macro level of policy reforms required to foster internationalisation. Besides higher education institutions they will also require the involvement of education authorities and/or ministries. Project budget between EUR 800 000 and EUR 1 000 000, 3-4 years.
