6. Budget - Budget

The applied grant is to be calculated in the designated unit cost grant template available below in 6.2. Attachment, and thereafter the sub-totals from the grant template are to be inserted manually in the column BUDGET hereunder.

Nordplus Adult does not set a fixed ceiling for grants. It means that applicants have the opportunity to define their needs for support on the basis of their specific project. Please note, however, that the programme has a limited budget available. For each project a thorough assessment of the applied budget is made. In particular, the assessment addresses the coherence between the description of the project and its results and the support applied for. Grant reductions may be introduced in the case a budget is not substantiated by a project description.

An average grant for a Nordplus Adult collaboration project is 50,000 euros. For more information about the grant scheme and unit costs please consult the Nordplus Handbook.
