

Erasmus+ Contact Seminar Long-Term Learning Mobility of School Pupils

Reykjavík, Iceland 06/10/2025-09/10/2025

Venue: [Hotel Berjaya Natura](#) (Nauthólsvegur 52, 101 Reykjavík)

The venue is approx. 40 min bus drive from the international airport in Keflavík.

Background

Join us in Reykjavík for a three-day contact seminar on long-term mobility of school pupils. This is the third contact seminar linked to the LTA "Long term mobility of school pupils".

The aim of this TCA is to respond to the obstacles and needs expressed by schools in the previous contact seminars when organising long-term student mobility and to continue fostering interest in long-term mobility of pupils in newcomers.

We intend to provide working strategies to manage long-term pupil mobility and to create a networking environment which facilitates finding partners for the next Erasmus+ call. Special interest will be paid to inclusion in long term pupil mobility. Finally, the TCA will seek to showcase good practices with the presence of schools with experience in long-term mobility.

The TCA is only open to participants from the SE sector. Target group: Teachers, staff and headmaster in schools that work with long-term mobility of school pupils or are interested in implementing long-term mobilities. Experienced and newcomers in long term mobilities

Expected results: Increased interest shown by the participants in planning and applying for long-term mobility of pupils. A new network of contacts established with a view to applying for and planning long-term mobility of pupils. Shared experiences on optimal management of long-term mobility of pupils.
