Nordplus Pieaugušo izglītības projektu finansēšanas vispārējie principi

Funding in Nordplus Adult

In Nordplus Adult two types of projects are funded: mobility projects and collaboration projects.

Grants are based on the completion of activities, not actual costs. The grants are fixed unit costs for different activities. If all activities are carried out as agreed in the contract, and the final report is approved, the partnership is entitled to keep the allocated grant no matter what the real costs have been.

Nordplus only covers part of the costs. All participating organisations must co-finance the project, but the co-financing must not be documented at application or reporting stage.

There is no fixed ceiling per project, but the total programme budget is about 1.2 million € per year. Budgets are assessed based on the project's goals and scale.

Typical two-year grant (3–4 partners): Approximately 50,000 €

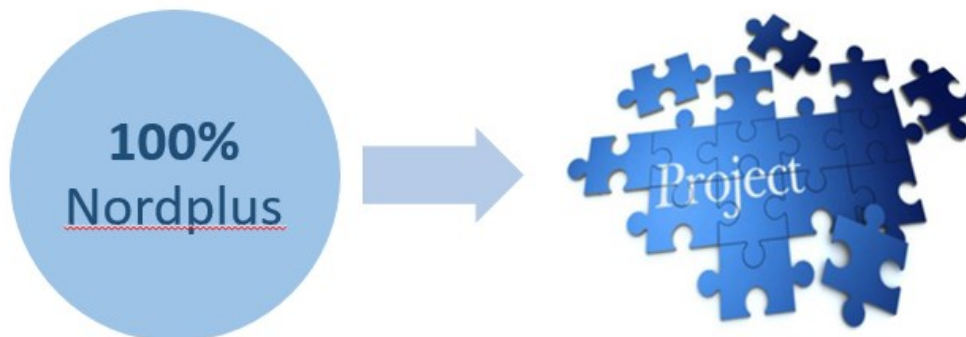

Mobility and development projects operate with two different unit cost systems described below.

I Mobilitāšu finansējums (1)

- 100% apmērā ceļa un uzturēšanās izdevumi saskaņā ar noteiktajām likmēm
- Ja ceļa un uzturēšanās izmaksas pārsniedz 10 000 euro vai piedalās vairāk kā 15 dalībnieki, iespējams saņemt **finansējumu projekta vadības izmaksām** – **2000** euro koordinātoram un **1000** euro katram partnerim. Neattiecas uz sagatavošanas vizītēm
- Var tikt segtas **faktiskās izmaksas dalībniekiem ar īpašām vajadzībām («Inclusion support»)**.

Thematic networks

Purpose:

Build lasting partnerships focused on a shared issue or topic relevant for adult education and learning.

What's required:

- Organisations work together on a common theme or challenge shared by all the involved organisations.
- Must include knowledge-sharing and experience exchange, which subsequently forms the basis of new knowledge and possibly proposals for new initiatives.
- Should lead to new knowledge or ideas
- Priority given to new partnerships with diverse organisations
- May lead to future Nordplus project proposals
- Application must outline:
 - The topic and shared goals
 - Detailed work schedule
 - Expected outcomes

Collaboration projects

- Involve at least three organisations from three different programme countries
- Each organisation can join max two collaboration applications (as coordinator or partner) per deadline. Higher education institutions are allowed to be involved in two collaboration applications per department. The coordinator is responsible for checking that the partnership complies with the limit. If more are submitted, only the first two will be evaluated. This limit does not apply to mobility projects or other Nordplus sub-programmes

Mapping projects

Purpose:

Study adult learning systems or practices and identify areas for improvement, such as:

- Collect and analyse existing knowledge, data, and practices
- Often includes comparisons between countries or sectors
- Results should inform new projects or recommendations

Key criteria:

- Must be based on existing research (no repetition of past studies)
- Must have broad relevance beyond the participating organisations
- Projects usually include both practitioners and research institutions. High priority is given to projects involving different types of organisations/institutions.
- Application must include:
 - A clear plan with aims and outcomes
 - Details on how the acquired knowledge will be published, e.g. in the form of a report.

6.1. Project support

Use the Nordplus Adult budget template to calculate your applied grant

The applied grant is to be calculated in the designated unit cost grant template available below in 6.2. Attachment, and thereafter the sub-totals from the grant template are to be inserted manually in the column BUDGET hereunder.

Nordplus Adult does not set a fixed ceiling for grants. It means that applicants have the opportunity to define their needs for support on the basis of their specific project. Please note, however, that the programme has a limited budget available. For each project a thorough assessment of the applied budget is made. In particular, the assessment addresses the coherence between the description of the project and its results and the support applied for. Grant reductions may be introduced in the case a budget is not substantiated by a project description.

An average grant for a Nordplus Adult collaboration project is 50,000 EUR. For more information about the grant scheme and unit costs please consult the Nordplus Handbook.

Support for special needs

If the project involves participants with special needs, i.e. mental or physical disabilities, it is possible to apply for coverage of up to 100% of extra costs related to these needs. If you want to apply for coverage of special needs, you can manually fill in the needed amount in EUR in the table below. Please read about participants with special needs in the chapter about Nordplus Adult in the Nordplus Handbook at www.nordplusonline.org before you apply. If you apply for coverage of costs for participants with special needs, you must explain in the comment to the budget what the applied amount will cover, and the real costs must be documented when you submit your final report by means of an invoice or similar documentation.
