

Welcome to the Project Incubator for vocational education and training!

A project incubator is a new approach to the traditional contact seminar with a greater focus on developing both the content and format of cooperation in the new project. The event would incorporate methods of co-creation and experimentation, as well as peer review of the project ideas and the plans. The themes are personalization, learning environments, new role of teachers and digitalization. The seminar will gather 70 professionals within vocational education from different European countries. This is a chance to create new partnerships and project ideas supported by National Agency staff.

Participants are invited to share good practices from different countries, identify challenges and discuss possible solutions regarding the future of VET.

When and where?

The seminar will take place in Helsinki, Finland, on 11-13 November 2019. Your participation and travel will be covered by an Erasmus+ grant. To apply please contact your Erasmus+ National Agency.

Target group:

The seminar is open to participants within all fields of vocational education

- VET Schools (teachers, principals, international coordinators)
- Representatives of companies, chambers, training centres
- Developers of vocational education

Pre-selection of the participants is made by NAs.

The seminar is organized by the Finnish Erasmus+ National Agency.
