# Coordinating intensive project

## Challenges:

- Existing problems/cases from small and mid-size companies
- Legal problems with partner countries' possible cases
- Tight timeschedule
  - Before intensive project
  - During intensive project
  - After intensive project
- Teachers participation period
- Travel budget
- First coordinating experience – we can't predict everything 😊

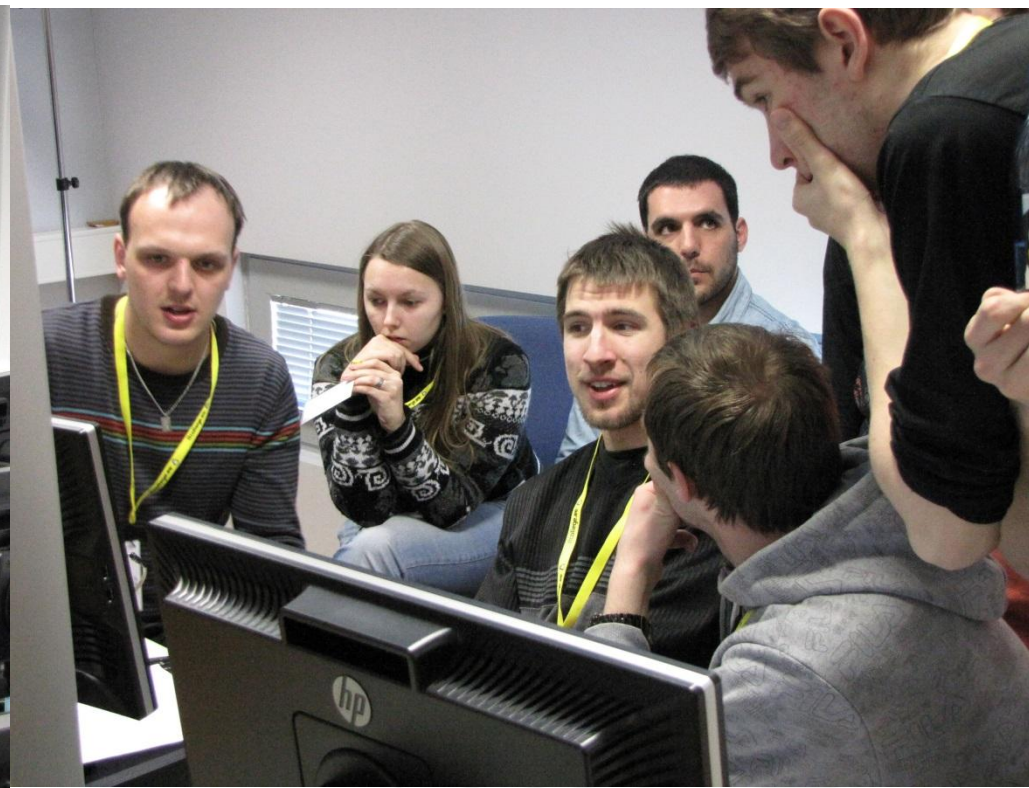

# Coordinating intensive project

## Benefits

- Students' multicultural experience
- Teachers' multicultural experience
- Very intensive and constructive period
- New partnerships and networks
- First day getting to know each other
- Closer cooperation with companies
- Closer cooperation with partners
- First successfully coordinated intensive projects
