Number of places in total: approximately 60

Profile of participants: The seminar is open to participants within the fields of **school education**. The contact seminar is mainly targeted at school leaders and teachers of pupils aged between 6 and 16, interested in the theme of the seminar and committed to develop Erasmus+ strategic partnership.

Themes and goals of the event:

The seminar will be an opportunity to share and discover approaches in the field of inclusion. Its aim is to create strategic partnerships between schools for the promotion of equity and inclusion. Students with disadvantaged backgrounds and fewer opportunities such as students with educational difficulties should get access to school education systems through innovative approaches.

In line with the Paris Declaration, one priority is to involve refugees, asylum seekers, migrants and people belonging to a national or ethnic minority. Priority will be given to actions

- addressing diversity in (formal and non-formal) education and training,
- developing social, civic, intercultural competences and media literacy,
- combating discrimination and segregation,
- tackling bullying as well as
- reducing disparities in learning outcomes affecting learners with disadvantaged backgrounds in particular through innovative integrated approaches.

This should also involve enhancing the access, participation and performance of disadvantaged learners and facilitating their transitions:

- between different levels and types of education and training;
- from education/training to the world of work.

These overall topics of the seminar set the frame where specific project proposal can be addressed.

Expected results: Participants will develop project ideas and start preparing their project application during the contact seminar.
